Chip,

The LWG Exec committed will need to approval any such request to have these data sets posted to the shared server. Can you please send a formal request to me and Bob and be very specific about which data sets you are seeking (e.g., it appears Jim Anderson limited his request to just the sediment data).

Once we have your formal request we will put this on the Exec agenda for consideration.

Thanks,

Jim McKenna

Jim - forgot to ask about this when we talked. Has the LWG finished updating the databases?

Chip

Kristine & Chip,
DEQ would like to get the LWG's updated RI sediment database & the Risk Assessment sediment database for PH. Last fall as we were completing our comments/responses to the RI/BRA..., I understood the LWG said they'd make those databases available. Will you ask the LWG for these databases as part of the preparation material for the 6/21-22 FS mtg the LWG plans to submit next week?

Please call me with any questions or concerns. Thanks.

Jim Anderson
